Employment History

Mechanical Assembly Technician - Stewart's Electric Motor Works - Orlando, FL - Nov 2022 to Aug 2023

Played a key role in the repair of industrial machinery including AC/DC motors, generators, pumps, and gearboxes. Key responsibilities included dynamic balancing of any rotating component inside the machine, meticulous inspection and assembly of a wide range of machinery, and final bench testing of every machine before the customer took delivery.

Motor and Pump Specialist - AAP Industrial - Sarasota, FL - Aug 2020 to Nov 2022

Versatile expertise in servicing a wide range of electric motors, including single-phase, three-phase, and DC motors, across various applications. Proficiency extends to a secondary specialization in centrifugal and submersible pumps.

Master Certified Automotive Technician - City Kia of Greater Orlando - Orlando, FL - May 2016 to Aug 2020

Dedicated and skilled Automotive Technician with a proven ability to analyze, troubleshoot, diagnose, and repair both mechanical and electrical faults across all systems integrated into modern vehicles. Possesses a robust understanding of electrical theory and its practical application, as well as a comprehensive grasp of Heating, Ventilation, and Air Conditioning (HVAC) theory and application.

Education

Full Stack Web Development - University of Central Florida - Orlando, FL - Graduated with a 98.8% - December 2023

Automotive Theory - Universal Technical Institute - Orlando, FL - Graduated top of class with a 4.0 GPA - August 2017

Projects

Koi Invoicing - <https://github.com/jradmorrison/koi-invoicing> - MongoDB, Express, React, Node, Mongoose, Apollo/GraphQL, JWT

Tasty Tableau - <https://github.com/jradmorrison/tasty-tableau> - MySQL, Express, Handlebars, Node, Sequelize

ListyFlix - <https://github.com/ThatZiro/Listy-Flix> - JavaScript, HTML, CSS, 3rd party APIs
